Fox Foundation for Parkinson's Research, American Parkinson Disease Association, National Parkinson Foundation, World Parkinson Disease Association, Parkinson Society Canada, WE MOVE and The Movement Disorder Society.

## 2<sup>nd</sup> WORLD PARKINSON CONGRESS

1359 Broadway, Suite 1509  
New York, NY 10018 USA

**The World Parkinson Congress Inc** is a nonprofit organization dedicated to providing an international forum for the latest scientific discoveries, medical practices and initiatives for those living with Parkinson's disease (PD). This forum, known as the WPC, provides a showcase of the most current and important developments in the world of PD, in three main areas: medical and scientific research; education and training; and quality of life and care.

The unique aspect of the WPC is that it brings the entire PD community together to give a global perspective on all aspects of the condition. This cross-pollination of the PD community allows for unique educational and collaborative opportunities that benefit the whole community. In the spirit of global cooperation, the WPC 2010 program will address an array of approaches to living with and curing PD and will be a valuable experience for everyone who attends.

**Educational Courses** The pre-congress educational courses on Tuesday, September 28, 2010 will offer scientific sessions for researchers and clinicians as well as a PD101 course to help explain the science of PD to non-medical communities. This PD101 course will also help give first-time attendees at a meeting of this kind the skills needed to get the most out of the meeting.

The opening ceremony, following these courses, will launch the beginning of the WPC 2010.

**CME/CEU** We will offer CME and CEU credits to a number of health professionals. Watch for more information from your local PD group and by all means – **SAVE THE DATE!**
